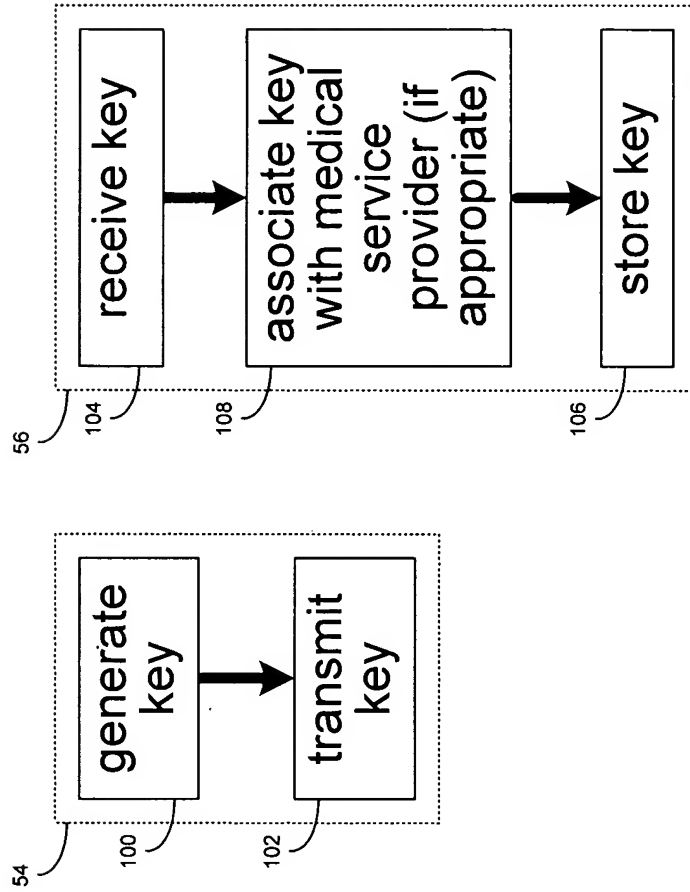

Fig. 3

Form 120 is a data entry form divided into three main sections. The top section, labeled 22, contains patient information: "Patient: Smith, Timothy", "20 Elm Street", and "Boston, MA 02110". The middle section, labeled 124, contains client information: "Client: Family Medical Clinic", "1 Main Street", and "Boston, MA 02110". The bottom section, labeled 122, is titled "Access Level Definition:" and contains a list of data types with checkboxes. A bracket labeled 128 groups the last three items: "cardiology data", "genetic data", and "infectious disease data". A dashed line connects the "Access Level Definition:" title to the bracketed group. A pointer labeled 126 indicates the "cardiology data" checkbox.

Access Level Definition:	
<input checked="" type="checkbox"/>	general patient data
<input type="checkbox"/>	allergies
<input type="checkbox"/>	serological data
<input checked="" type="checkbox"/>	psychiatric data
<input type="checkbox"/>	cardiology data
<input type="checkbox"/>	genetic data
<input type="checkbox"/>	infectious disease data
